

Being a Web Developer and a citizen of Assam I would like to highlight following Points for the Assam government website --

1. Not a single website is mobile responsive, The menu button not stop working in smaller screens like mobile and Ipad. Mobile Devices Now Driving more than 56 Percent Of Traffic To Sites .

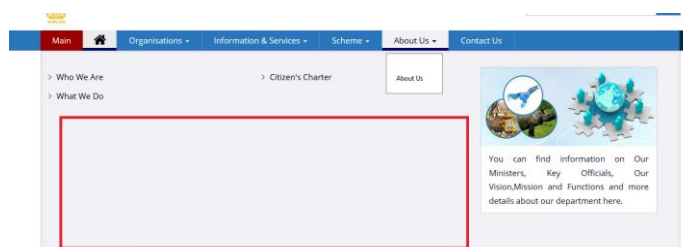

2. All government website must have a Assamese version for the people who don't have the knowledge of English . Information must be accessible for all and local language must be added .

3. Images are broke in home pages. Death links and inappropriate Images must be deleted .

4. Navigation system (menu) can be improved, unnecessary extra black space in menu.

5. Feedback and FAQ section should be place in visible location.

6. Information's like tender, employment notice or other information must be stored in an archive page for easily accessible whenever required .

7. Quick links are not labeled . For general people these are just logo . Giving a header can give a meaning to these logo for better utilization
