3 Reporting and prioritisation	3 Lifecycle of an incident or accident investigation
4 Investigation: fact finding	
5 Investigation: analysis	
6 Recommendations and actions	
7 Broader learning	
8 LFI evaluation	
Performance influencing factors	4 Key factors influencing human failure

We Each Accountable "Excellence in service". Let us make it mandatory to make an Lost Prevention Team with all Puja committee with SMARRT work technique .

Based on LFI the dumping of waste in three segregated west bin smartly displayed (matel-food-plastic-e waste).

Control of sound pollution 20% below of the govt. permissible sound (dB) role with time Day/Night

Disposable of the "Murties" at only one place considering minimum journey. Minimize the bikers specially the teenagers. Let me share one experience ; within one hour in Dibrugarh from just entering and exiting the city two catastrophic accident of school boy I have observed.

Observation and Intervention with buddy system.

Thanks

Biman Konwar
